

NOTICE TO THE BAR

NEW JERSEY RULE OF EVIDENCE 534 (NEW) – MENTAL HEALTH SERVICE PROVIDER-PATIENT PRIVILEGE – ADOPTED TO BE EFFECTIVE JULY 1, 2016

Pursuant to N.J.S.A. 2A:84A-35, attached is the Supreme Court's Order of September 15, 2015 adopting new N.J.R.E. 534 of the New Jersey Rules of Evidence. N.J.R.E. 534 creates a unified mental health service provider privilege, which is intended to modify or replace the different and occasionally inconsistent privileges that currently exist for communications between patients and various mental health service providers. The privilege applies to confidential communications between a mental health service provider and a patient during the course of treatment of, or related to, the patient's mental or emotional health condition.

N.J.R.E. 534 applies to confidential communications made to the following mental health service providers: (1) psychologists; (2) physicians, including psychiatrists; (3) marriage and family therapists; (4) social workers, including social work interns and certified school social workers; (5) alcohol and drug counselors; (6) nurses; (7) professional counselors, associate counselors or rehabilitation counselors; (8) psychoanalysts; (9) midwives; (10) physician assistants; and (11) pharmacists. The proposed rule, however, specifically excludes communications made between those service providers and victims of violent crimes. Those communications are instead evaluated under the "Victim Counselor Privilege" contained in N.J.R.E. 517.

The new rule proposal was presented and discussed at a Judicial Conference on September 2, 2015 in accordance with the requirements of N.J.S.A. 2A:84A-34. The

proposal, as recommended by the Supreme Court, was previously announced by Notices to the Bar dated August 7, 2015 and August 14, 2015.

The Court's Order notes that the effective date of the new rule is July 1, 2016. The action of the Court is subject to the terms of N.J.S.A. 2A:84A-36.
